Basic Information related with HP® universal toners ;

- * HP® UNIVERSAL DYNO® -- TSHDYNO is upgraded version of Star series and TSH87B
- * New HP® Modals like Pro M102A+M203D + Ultra M106W and M 402 are completely different technology and requires specifically designed toner, not use any universal toner for them
- * If your customer is not clean the cartridges only HP® UNIVERSAL MOON -TSHMOON is recommended for them
- * If your customer is sensitive and aim to best possible result please suggest to use specifically formulated toners for target printer if Universal toner is mandatory suggest to use our flagship "STAR SERIES" none of any universal toner at the market could reach same properties
- * HP UNIVERSAL U toner is our second quality toner which suggested to use against Asian toners excluding Japanese
- * If your customer is using usually recharge non-virgin OEM cartridges or recharge %100 new Chinese cartridges and not change the components ; it is better to suggest them to use HP UNIVERSAL NC (TDHNC) or as second option HP® UNIVERSAL MOON -TSHMOON
